

SURIYABALAJI S

Full Stack Developer (MERN) | Generative AI Enthusiast | Fresh Graduate

Chennai, Tamil Nadu, India | +91-9962434596 | suriyabalaji373@gmail.com

LinkedIn: linkedin.com/in/s-suriyabalaji | GitHub: github.com/suriyabalaji-007 | Portfolio: suriyabalaji-portfolio-v1.netlify.app

PROFESSIONAL SUMMARY

Fresh Computer Science and Business Systems graduate with hands-on experience in Full Stack Development (MERN), Generative AI, and Prompt Engineering, built through three internships and multiple independent projects. Proficient in Java, Python, JavaScript, React.js, Node.js, and MySQL, with practical exposure to RESTful API development, database design, and AI/ML model integration (YOLOv8, DeepFace). Winner, IIT Madras Shaastra Techathon AI/ML Challenge. Strong communicator and team collaborator seeking a Software Developer / Full Stack Developer role to apply technical skills and deliver scalable, user-focused solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Web Technologies: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, RESTful APIs, MERN Stack

Mobile Development: Flutter, Android Studio

AI / Machine Learning: Generative AI, Large Language Models (LLM), Prompt Engineering, YOLOv8, DeepFace

Data & Libraries: Pandas, NumPy, Matplotlib

Database: MySQL, MongoDB, SQLite

Cloud & DevOps: AWS, Git, GitHub, Version Control

Tools: Visual Studio Code, Antigravity

Core Competencies: Full Stack Development, API Integration, Team Leadership, Problem Solving, Agile Collaboration

PROFESSIONAL EXPERIENCE

MERN Full Stack Development Intern | EduSkills Foundation, India *Dec 2025 - Mar 2026*

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Built and integrated RESTful APIs connecting backend services with React.js frontend applications.
- Implemented CRUD operations and optimized database queries, improving application performance.
- Designed responsive, reusable React.js UI components and improved cross-device usability.
- Applied Git/GitHub version control practices and collaborated on debugging and deployment of web modules.

Generative AI Training and Internship | IAHV, India *Sep 2025 - Dec 2025*

- Applied Generative AI concepts, including LLM workflows and prompt engineering, to build AI-based applications.
- Optimized prompts to improve model response accuracy and relevance, enhancing workflow efficiency.
- Tested and evaluated AI model outputs, contributing to model optimization for speed and accuracy.
- Integrated AI automation tools into application workflows through hands-on experimentation.

Web Development Intern | Semantic Soft Solutions, Chennai *Jan 2024 - Feb 2024*

- Developed responsive web components and client dashboard UI modules using HTML, CSS, and JavaScript.
- Collaborated within an Agile team, using Git for version control and iterative feature delivery.
- Debugged frontend issues and improved webpage responsiveness across multiple devices.

PROJECTS

FinAIMT - AI-Driven FinTech Ecosystem | Personal Project *Ongoing*

- Built an AI-driven financial co-pilot mobile application using Flutter and Clean Architecture with Riverpod state management.
- Developed custom FL Chart data visualizations for Indian financial assets and automated investment advisory workflows.
- Implemented tax calculation modules for Section 80C compliance and designed responsive financial dashboards.

SecuritySentinel - AI-Powered Weapon and Threat Detection System | Personal Project Apr 2026

- Built a real-time threat detection system using YOLOv8 object detection and DeepFace facial/behavioral biometrics.
- Designed a Multi-Factor Threat Matrix for dynamic threat scoring and Flask-based backend monitoring services.
- Developed automated forensic alert notifications via encrypted SMTP and a Glassmorphism-based monitoring UI.

Goshin-Ryu Karate-Do Platform - Digital Ecosystem for Martial Arts Management | Personal Project Ongoing

- Contributed to frontend and backend integration for a digital platform managing martial arts operations.
- Built responsive UI features and supported scalable application architecture and functionality planning.

EDUCATION

B.Tech, Computer Science and Business Systems | Mohamed Sathak A.J. College of Engineering, Chennai 2022 - 2026

CGPA: 8.0 / 10

Higher Secondary Education | Avichi Higher Secondary School, Chennai 2020 - 2022

Percentage: 69%

Secondary Education | Bharathi Matriculation Higher Secondary School, Chennai 2019 - 2020

Percentage: 75%

CERTIFICATIONS

- Python, JavaScript, Bootstrap, MySQL - Spoken Tutorial, IIT Bombay
- Java Programming - Beasant Technologies
- Git and GitHub - Simplilearn
- Generative AI - IAHV

ACHIEVEMENTS

- 1st Place, IIT Madras Shaastra Techathon - AI/ML Challenge (2024)
- Top 5 Finalist, Technoxian World Robotics Championship - Fastest Line Follower category (2024)
- Solved 50+ coding problems on LeetCode
